# Questions for Your Doctor About Psoriatic Arthritis

When you meet with your doctor, you can take this list of possible questions that will help you better discuss your psoriatic arthritis and the treatments that are available.

*What is psoriatic arthritis?*

*What are the symptoms of psoriatic arthritis?*

*What causes psoriatic arthritis?*

*What can psoriatic arthritis do to my skin and nails?*

*Am I at risk for permanent joint damage?*

*Do I need to see a specialist?*

*Will the treatment you select for me treat both joint and skin symptoms?*

*How are biologics different than other types of therapy?*

*Would biologic therapy be appropriate for me?*

*What are the side effects of biologic therapy?*

***Additional questions that I have:***

## My Notes

*Before you visit with your doctor, write down some ways your psoriatic arthritis affects your daily life.*
